

Planning for the future just got easier

With Prudential LTC EvolutionSM long-term care insurance, there's...

Only one benefit decision— Policy Lifetime Maximum

Instead of guessing at how much money an individual might potentially need on a daily, monthly or annual basis to help cover future long-term care expenses, Prudential LTC Evolution lets the policyholder choose a Policy Lifetime Maximum of up to \$1 million—a pool of money that's available to provide 80% reimbursement for covered long-term care services.*

Greater control over care decisions

With Prudential LTC Evolution there to help pay for care that most health plans don't cover, policyholders have greater control over care decisions that can affect their quality of life.

More options to help stay at home

In addition to covering nursing home care, Prudential LTC Evolution can also provide:

- 80% reimbursement for a wide range of long-term care services policyholders can receive in their own homes
- 100% reimbursement for additional home support services that can reduce the chance a policyholder will ever need to move to a care facility—including modifications to the home, caregiver training, assistive devices, and more**

* Subject to underwriting, the policyholder may choose any amount from \$100,000 to \$1 million (in \$100,000 increments) for a Policy Lifetime Maximum. All benefits paid reduce this amount. Increases to the Policy Lifetime Maximum are possible when the insured elects to purchase additional coverage through the policy's Guaranteed Increase Feature or optional Automatic Compound Increase Options.

**The Home Support Services Benefit pays 100% of Actual Eligible Charges up to \$10,000 for covered items and services that can help increase a policyholder's ability to stay at home.

Non-Duplication Of Medicare Benefits

Benefits under your Policy are not payable for expenses for Qualified Long-Term Care Services to the extent that such expenses are reimbursable under Medicare or such expenses would be reimbursable under Medicare but for the application of a deductible or coinsurance amount. This does not apply if such expenses are reimbursable by Medicare as a secondary payer or to claims for the Starter Benefit.

Coordination With Other Prudential Individual Long Term Care Insurance Policies

Benefits under your Policy may be reduced if we also pay benefits for Eligible Charges under any other Prudential Individual Long Term Care Insurance Policy. Benefits will be reduced under this Policy only when payment under this Policy and all other Prudential Individual Long Term Care Insurance Policies combined would exceed the actual amount you incur for Eligible Charges. In no event will we pay more under this Policy than the difference between your actual expenses and the amount payable by your other Prudential policies.

If you are insured under more than one Prudential Individual Long Term Care Insurance Policy with a similar Coordination provision, the policy with the earliest effective date will be deemed primary and will pay its benefits first. Thereafter, payment will be made under any additional policy (secondary coverage) in order of effective date, from the earliest to the latest. A Prudential policy without a similar Coordination provision will pay first, without any reduction in its benefits.

This provision does not apply to claims for the Starter Benefit.

Calendar Day Elimination Period **90 days**

Satisfying the Calendar Day Elimination Period (CDEP): CDEP is cumulative and needs to be met only once per lifetime. Beginning with the date the insured is certified as having a chronic illness or disability, each calendar day counts toward meeting the CDEP. No services required.

Guaranteed Increase Feature (GIF)

Clients can plan for inflation using this built-in policy feature, or they can choose to replace it with an optional Automatic Compound Increase Option Rider. Whenever a policy includes GIF, increases to coverage are made every five years unless we receive written notice that the client declines the increase (negative election). GIF can provide added security since an insured who is benefit-eligible will continue to receive GIF offers on a guaranteed issue basis—with premiums waived if the policy is in premium waiver status.

- Key Features:
 - > Benefit increases to coverage are rated at attained age.
 - > Increases to coverage cease at insured’s 76th Birthday.
 - > Each increase equals 25% of Policy Lifetime Maximum in effect on that Policy Anniversary (not including any prior increases under this Guaranteed Issue Feature).
 - > When each GIF is applied, Starter Benefit increases by \$375 increments, Home Support Services Benefit increases by \$2,500 increments.

Optional Inflation Protection

General: Client has the option to purchase an Automatic Compound Increase Option Rider, which will replace the Guaranteed Increase Feature (GIF). All increases continue even if the client is in benefit status.

Options:

- Automatic Compound Inflation Benefit
 - > 3% and 5% compound inflation options are available. Only one can be elected.
 - > If added past original effective date, it is rated at attained age, with underwriting.
 - > All benefits, including the Starter Benefit and the Home Support Benefit, increase on a compounded basis each Policy Anniversary by 3% or 5% depending on option chosen.

Additional Features (Part Of Every Prudential LTC Evolution Policy)

Home Support Services Benefit: Pays 100% of Actual Eligible Charges up to \$10,000 Policy Maximum. The CDEP doesn’t have to be satisfied, so this benefit may be used during the Calendar Day Elimination Period.

- Caregiver Training
- Home Modifications
- Emergency Medical Response Systems
- Transportation Services

- May be used during Calendar Day Elimination Period
- No limit on use
- Contact (800) 732-0416

Optional Benefits

Shared Care Benefit: Two spouses or partners must purchase this rider together and have and maintain identical plan designs (including inflation options). If one spouse/partner exhausts benefits under his/her own policy, he/she can access benefits under the other spouse’s/partner’s policy. If one spouse’s/partner’s limits are used up by the other, he/she can purchase a new policy with up to 50% of the original Policy Lifetime Maximum purchased (minimum of \$100,000, maximum \$300,000) on a Guaranteed Issue basis without underwriting. The maximum age to purchase this new policy is 90. If one spouse/partner dies before exhausting his/her Policy Lifetime Maximum, the remaining pool of money would be available to the surviving spouse/partner when he/she exhausts his/her own policy limits.

Non-Forfeiture Benefit Rider (Shortened Benefit Period Option): Adds a provision to the Policy to extend coverage for a shortened period of time if the Policy would otherwise end due to non-payment of premium. If elected, must be purchased at original Effective Date. It cannot be added later.

- Key Features:
 - > The Shortened Benefit Period Rider replaces the Contingent Non-Forfeiture Provisions in the policy.
 - > There is no Shortened Benefit Period if policy lapses before the third anniversary.
 - > The Shortened Benefit Period does not apply if benefits have been paid that equal or exceed the total amount of premiums paid for the policy. State variations apply.

 - The total amount of premiums paid less the sum of all benefits paid while the policy was in force
